# Tudor Mutică

I build AI apps people can use today. Two are live on Azure · taking on freelance projects

Bucharest · contact@tudorm.ro · linkedin.com/in/tudor-mutica · github.com/TudorM-Dev

## EDUCATION

**Politehnica University of Bucharest** 2025 – 2029 (expected)
*B.Eng., Applied Engineering Sciences, Industrial Informatics (FIIR)*

## AWARDS

**Gold Medal**, I-FEST² International Festival of Engineering, Science and Technology, Tunisia 2023
**1st Place**, InfoEducatie, national olympiad of digital innovation and creation, with SmartifyBot 2024
**2nd Place** nationally, ONCS (Scientific Creativity Olympiad) and RoSEF, with SmartifyBot 2024

## AI PROJECTS

**HelpMate** · an AI interviewer that asks technical questions and grades your answers 2026
*.NET 10, ASP.NET Core, Blazor, EF Core, Anthropic API / Ollama, xUnit, Azure* live demo · code

- Pick a role and a level, answer in your own words, and get a score out of ten plus what was missing.
- The AI can't be talked into touching someone else's data: its 3 tools never receive a user id.
- Runs on Claude online and on a free local model offline. Adding the second one took 100 lines.

**LexCopilot** · an AI legal assistant that answers from your own PDFs, fully offline 2026
*C#, .NET, WPF, Ollama, PdfPig* code

- Answers questions about a case and cites the article behind every claim. No document leaves the computer.

## OTHER PROJECTS

**SmartifyBot** · a robot arm that spots plastic bottles with a camera and takes voice commands 2023 – 2024
*Python (OpenCV, YOLO), C++ (Arduino, Teensy)* code

- Built it on my own: firmware on two boards, computer vision and the control panel. Won 3 national awards.

**TrackRecord** · album ratings that only your friends can see 2026
*Node.js 22, TypeScript, Express 5, Prisma, React 19, Azure* live demo · code

- Wrote the login system myself, so logging out ends the session at once. Strangers see 4 fields of a profile.

**RecordingStudio.BookingEngine** · booking for recording studios 2026
*.NET 10, ASP.NET Core, EF Core, SignalR, Blazor, xUnit* code

- 6 booking rules, checked by 8 unit tests. Every open page sees a new booking the moment it is made.

## LEADERSHIP

**Robotics Instructor**, Ferdinand I National College, Bacău 2024 – present

- Coached the team that reached the FIRST LEGO League Open International Championship Greece 2026.

**Team Manager & Software Lead**, SmartCluster Robotics (FIRST Tech Challenge), Bacău 2022 – 2023

- Led the robot's Java code and reviewed the programming group's work. The team reached the national finals.

**Volunteer Coordinator**, Don Bosco Foundation, Bacău 2021 – 2025

- Recruited, scheduled and led volunteer teams for summer camps of 600+ children a year, five years running.

## SKILLS

**AI:** Anthropic API (Claude), Ollama, local LLMs, AI agents with tool calling, RAG, OpenCV, YOLO
**Languages:** C#, TypeScript, JavaScript, Python, Java, C++, SQL
**Building:** ASP.NET Core, Node.js, React, Blazor, EF Core, Prisma, REST APIs, Azure, Git
**Spoken:** Romanian (native), English (Cambridge C1 Advanced, 2025), German and Russian (basic)
